geekstudios.co

I graduated Cum Laude from Arizona State University with a Bachelor's degree in Web Design & Internet Development in 2011. I also have an Associate's degree in Graphic Design for print from Scottsdale Community College.

SKILLS

"Love is the absence of judgement." - Dalai Lama

Experience

Peterson's Education

UI/UX Developer

09.2015 - Present

Responsible for designing and developing user interfaces for web applications and websites using the latest Bourbon/Sass framework, including neat, bitters and refills as well as the Foundation framework. I create wireframes and prototypes in UX Pin and Photoshop. After the initial design, I then build those user-interfaces responsively with HTML and CSS3 for all modern browsers.

Insight Enterprises, Inc.

Intranet Manager / Web Designer

07.2011 - 09.2015

At Insight, I managed a corporate intranet, that was launched in February 2015, as well as the old intranet that was developed in ColdFusion. On a day-to-day basis, I handle anything from support tickets to landing pages within the CMS to creating large, fully functional microsites outside of the intranet CMS platforms. I managed user access as well as the overall governance of the system.

Freelance: Dakota Rumors

Front-End Web Developer

07.2011 - 09.2015

Managed a full website project from design to development in HTML4/CSS3/JavaScript. Using Photoshop, I created the initial user interface showing little to no functionality. From there, I developed a static HTML/CSS3 site to show the client how the site will look and act when live. This site was built using Bootstrap 3.

Freelance: The Happy Fish

Front-End Web Developer

07.2011 - 09.2015

Managed a full website project from design to development in WordPress. Using Photoshop, I created the initial user interface showing little to no functionality. From there, I developed a static HTML/CSS3 site to show the client how the site will look and act when live. After client approval, the site was moved to a WordPress platform providing a dynamic and easy to use site for the client.
